Chairman Payne of the ways and means committee was prepared to again take charge of the momentous piece of legislation. It was precisely 12:02 o'clock when Clerk Crockett of the senate appeared in front of the speaker's rostrum and announced that the senate had passed the tariff bill. Two minutes later, on motion of Mr. Payne, the house took a recess until 1 o'clock in order to permit the committee on rules to meet, with a view to deciding upon a course of procedure in reference to the tariff bill, to be recommended to the house.

Great crowds that had | dean Main streets. been parading the streets finally turned in the direction of the Argentine legation, which they surrounded. There were shouts of rage, and stones and other missiles were huried at the building. The local authorities endeavored to check the manifestations, and at length the government found it necessary to order out troops. Both this legation and the Peruvian legation are now under a strong guard.

The Bolivian people unanimously protest against the decision rendered by President Alcorta, which they consider most unjust. The territory involved is the famous Acre district, recently purchased by Brazil from Bolivia for \$10,-000,000, notwithstanding the fact that Peru issued a warning that the territory was at that time the subject of arbitration. Peru's complications are certain to involve Brazil.
